SHIFT+LEFT ARROW : Move forward 30 sec. SHIFT+RIGHT ARROW : Move backward 30 sec. SHIFT+UP ARROW : Move up one level. SHIFT+DOWN ARROW : Move down one level. CTRL+LEFT ARROW : Move forward 30 sec. CTRL+RIGHT ARROW : Move backward 30 sec. CTRL+UP ARROW : Move up one level. CTRL+DOWN ARROW : Move down one level. CTRL+HOME : Restarts the game. CTRL+END : Restarts the game from the last saved point. CTRL+HOME+END : Restarts the game from the last saved point and restores the position. A bunch of cheat codes are included. The first and most useful one is the "Easy AI" code, which turns off the regular, annoying scripted AI for a game with regular enemies. Another interesting cheat code is the "Shooting At Enemy" code. It makes you automatically shoot at an enemy every time he enters the field of view. Other useful codes are: "Stuck With Snakes" : Creates a loop, so that you will always be stuck fighting the same snake. "Slow Down" : Increases the movement speed by 0.5x. "Faster AI" : Decreases the time it takes to act for the scripted AI. "Easy AI" : Turns off the normal scripted AI. "Invisible Enemy" : Makes the enemy completely invisible. The last code on the list is named "Extra Health", and makes you immune to health-related damage. This saves you the effort of finding "coins" and refilling health at every single level. However, this requires you to have a fast internet connection in order to get your cheat code every time you die. Conclusion Cheat Database Editor is a handy program that can be used by gamers, modders and cheaters for the PEC. The interface is intuitive and user-friendly and comes with a well-organized cheat database. Main Features: Many stat boosts Enhanced movement and mobility Lowered requirements New skill tree and abilities Many items available Enhanced items, skill and ability The whole story is based on your stats and equipment You can directly challenge boss monsters and have a chance to beat them Constant rewards You can get an infinite amount of experience, gold and energy by directly challenging a boss. All characters you have ever acquired can be put together to form a party. This is because all characters have a party background, which can be acquired by defeating them in real battles. You can take over any character that is asleep or dead, and they will be revived automatically. You can get an infinite amount of pure gold or energy. You can have an unlimited amount of scrolls, and you can freely stock up on other items that can be found by killing monsters. You can make your own set of armor, weapons and equipment by equipping and mixing items. Characters will be regenerated in a new level once the daily limit is exceeded. This includes the status of all stats, and they can go higher when you level up. Some items and equipment can be taken apart and put back together again. Characters that you level up are better equipped. There are hundreds of armor, weapons and equipment. You can freely swap them between characters. You can freely swap your equipment with other

characters of the same character class. There are three stats: Mind, Physical, and Spiritual. A mind stat is added on top of the Physical and Spiritual stats. This means that in addition to your Physical and Spiritual stats, you will get 1% more Mind stat. You can increase your Mind stat by playing and training mind. Your mind stat will decrease whenever you play or sleep. You can train your mind stat by using the Mind stat on itself. As your mind stat goes up, your all stats will increase in proportion. If you have not seen your own character before, you can see how powerful he/she is. An awesome character is not automatically awesome. He/
