INSIDE EDITION was there as lawmakers in Colorado took a tough stance on gun violence. The vote to go further in restricting gun rights - extending background checks - was seen by some as a watershed moment. But the GOP, which is trying to regroup following its disastrous presidential election, was not united. Republican Brad Powell, of Aurora, held his ground, even though it might not be popular among his fellow Republicans. "It's unfortunate, but I'm pretty sure this is what it's going to take to keep people safe," he told INSIDE EDITION. Republican Nick Schroer, of Aurora, also voted for the bill. "I'm not necessarily proud of it, but this was the only bill that had any kind of reform in it," he said. Another Republican, Colorado state Rep. Joel Pritchett of Lakewood, said he went against his party, voting "no." Pritchett said he voted against the bill because the legislation was not put through a public hearing. "It was an unadvertised bill," he told INSIDE EDITION. Now, lawmakers are left to keep gun control focused, and voters and gun owners are waiting to see what comes next. "As soon as he gets a chance, he's going to have to deal with guns, he's going to have to deal with this." The vote means that Colorado would be the fifth state to extend background checks for private gun sales. However, more than half the states already require background checks on private sales. Q: difference between release-1.9 and release-1.9.3 tarballs of axis2 I have downloaded axis2 from here and have extracted it. I have a question about release-1.9.3-1.9.3.1.tar.gz. I downloaded this tarball from here. What does "1.9.3" mean? The same question goes for axis2-1.4.1-1.4.1.2.tar.gz and axis2-1.4.1-1.4.1.3.tar.gz, for example. I don't know the answer to this question. Any help? A: "1.9" is "version 1.9", that's what
