## Send-Safe Mailer Crack + Activation Code With Keygen [Updated] 2022

Send-Safe Mailer is a powerful piece of software that provides you with the possibility to send bulk emails from your computer or a remote station with or without the need to use proxies. In those countries where it is legal to use proxies, the Send-Safe program can make it impossible for anyone to trace the email back to your ISP and thus keeps your connection to the internet safe. This gives you a safe haven in which to send your mail. With Send-Safe Mailer you can: - Send bulk e-mail to up to 200,000 addresses - Save your incoming/outgoing mails - Split your mails into several threads - Check and edit the statistics (Clicks, Recipients and Opens) of the threads. - Print reports showing the statistics. - Save the lists to text files and HTML, PDF or OpenOffice Calc files. - Export your lists to an HTML file which can be directly printed. - You can save the mails on CD/DVD in your computer or on a removable disk. - You can control the recipients via the progress bar. - You can make a copy of your lists for a specific period of time. - You can even make a backup copy of your lists, the mails and the statistics! - The program offers the functionality of an anti-virus. - Send the emails even if your network connection is not very fast. - Send a mail even if it will be rejected by the recipient! - A mailbox manager as smart as Outlook Express. - The program is for Linux as well as Windows. We welcome you to test the Send-Safe Mailer for a 30 day period. You can send up to 200,000 mails, split or unsplit them and save them. We offer you a 30 day trial version and we are going to send a 25,000 email account to you as soon as you have filled in the activation form. In addition, you can import the mails, send the list, save them and even make a backup copy of your lists and the statistics. This can be completely done via the Send-Safe Mailer Window. After the 30 days are over, your data will be expunged from our system and we will not even be able to know where you were sending the mails. We only keep a record of the e-mails that you have sent through Send-Safe Mailer.
