If so, I want to return the first token in that document. Here is what I have so far: true 0 10 A The problem I am running into, if the keyword is in the title of the document, the first token returned is the keyword itself. For example, a document with the title "Golf" has no keywords (and in fact is not a match). However, if a document with the title "Golf" does contain the keyword "A", the first token returned is "A". My search is not returning the document with the title "Golf". I am using Solr 3.6.2 A: You are pretty close but you

Listing a study does not mean it has been evaluated by the U.S. Federal Government. Read our disclaimer for details. This study will assess the safety and efficacy of a hydrophilic cyanoacrylate glue (Histoacryl) in upper airway reconstruction following pharyngeal resection in ETS carcinoma. The aim of this study is to compare efficacy of hydrophilic glue and standardised surgical procedures. Hydrophilic cyanoacrylate glue (Histoacryl) will be applied at three (3) injection points (subhyoid, retromolar and pre-epiglottic) after thyroidectomy and omohyoidectomy for cancer and laryngohyoidectomy for benign disease. Microvascular anastomosis will be performed. Hemostasis will be achieved by suture. In case of submucosal fibrosis, dissection will be conducted and granulation tissue will be removed. Standardised surgical procedures will be applied for all patients. The primary end point is to compare efficacy of a hydrophilic cyanoacrylate glue (Histoacryl) in upper airway reconstruction following pharyngeal resection in ETS carcinoma with standardised surgical procedures. The secondary end point is to compare efficacy of a hydrophilic cyanoacrylate glue (Histoacryl) in upper airway reconstruction following pharyngeal resection in ETS carcinoma with standardised surgical procedures in terms of preservation of hypoglottis, vocal fold mobility, postoperative laryngeal edema and clinical outcomes (return to normal diet, postoperative adjuvant therapy). Quality of life and voice will be documented and compared between the two groups. The study will evaluate efficacy of a hydrophilic cyanoacrylate glue (Histoacryl

X-raying every era within the warehouse can be very confusing. You might be taking your time to be familiar with this thought. However, if you could get to know and do not falter on this idea, then there is no excuse that can hold you back from your success. X-raying every era within the warehouse can be very confusing. You might be taking your time to be familiar with this thought. However, if you could get to know and do not falter on this idea, then there is no excuse that can hold you back from your success. This is a 15 minutes exercise, where you will be doing an x-ray on a cluster of shoes. There are five training areas in this exercise. So, on this way you will be doing a series of x-rays. That is what we call a 9-point collection exercise. We will start with this one, which shows you a cluster that has some initial quality issues. We will first start with a x-ray and then we will have a second x-ray. Now, if you are comfortable with x-rays, then we have some other good ones for you. These areas are the ones that you are going to want to practice in your warehouse. If you have questions, then please feel free to get in touch with me. You can contact me on my FB page: Profiles- HPCPLibrary. Hi Everyone, I hope you are doing well. I want to post a question, I would appreciate any help I can get. I have these three awesome pictures and the only problem is to color code them all so that I have a single color for each product. Thanks!!!! I have attached the pics, you can see them. Please send me your opinion if you have any answers. You can also email me at: Kelly_Gay@yahoo.com. I will be very grateful for any help you can give me. Hi Everyone, I hope you are doing well.
