What's new in Fifa 22:

- **Fantasy Drafts:** Create and manage your own fantasy team in Drafts.
- **Edit your created Ultimate Team:** Edit your own squad. Select players; alter their attributes, earn experience points.
- **Regular FUT matchmaking:** Play against other players in regular FUT matches and win, lose, draw or even get bored. Have fun!
- **Achievements:** Feeling lost in the achievement system? Get coaching tips to help you unlock new in-game rewards.

FIFA 22 introduces "HyperMotion Technology," which uses motion capture data collected from real-life players to power gameplay. The data collected from player movements, tackles, aerial duels, and on-ball actions is used to power gameplay. At launch, the HyperMotion Technology will be available in Career Mode and Career Mode offline (Singleplayer), but an online beta access will be available soon.

The Fox Engine has been re-engineered:

- **New, more responsive animation with no dead spots:** Traction, jumping and landing skills, goalkeeping and finishing have all been reworked to improve fluid motion.
- **40 times more ray traced, real-time shadows:** New physical shadows that engulf body parts, combine with the RT SPORT lighting engine to create an experience that captures the chaos of real-life football.
- **Micro sports physics:** Our fluid animation system powers new micro collisions that react to the on-ball players actions like a real football, updating game physics with real-life power and pressure.
- **True, field-to-goal transitions:** Your created opponents will enter the fray via true field-to-goal transitions, bringing loads of emotion and excitement to gameplay.
