Elements includes the following tools: • Apply Basic Correction and Enhance. • Adjust Color and Exposure. • Convert Color. • Colorize Black and White. • Create a New Document. • Cropping. • Enhance the Black and White Conversion. • Create A New Project. • Designate a Custom Workspace. • Selective Color. • Sharpen and Smudge. • Tonal Values and Selective Color. • Photo Toning. • Emboss and Blur. • Create a New Photo Album. • Adjust the Font Size. • Create a New Web Link. • Choose a Background Color. 1. Apply Basic Correction and Enhance In this lesson, you'll learn how to use the basic color and sharpening tools in Elements. Then you'll learn how to add a filter, remove a filter and adjust lighting. Step 1: Open an Image Open a jpeg, png or gif image in Photoshop Elements. Step 2: Apply Basic Color Correction Select More Tools > Adjust Color > Adjust Color. Note: Use the levels tool to highlight the dark areas first. Tip: Focus only on the image's dark areas first so the image's light areas won't be affected. When you switch to the light areas, you'll notice that the image's light areas will be highlighted. Step 3: Change the Hue and Saturation Select Hue/Saturation and then change the Saturation and Hue settings. Select either the slider or the arrow next to each setting. Tip: To increase or decrease a setting, drag the slider or press Enter on a keyboard. Step 4: Adjust the Light Select Lighting Effects > Add Lighting Effect. Note: Try to add a lighting effect that's similar to the lighting conditions in your photo. Tip: If you take lots of photos in different lighting conditions, try creating a personal catalog of lighting effects. Step 5: Adding a Filter Select Filters > Adjust > Layer Effects > Smart Sharpen or Filters > Filter > Blur > Lens Blur. Tip: After you apply a filter, you can change the appearance of the filter by changing its Radius value. 05a79cecff

Cunningham to Speak at Essay Writing & Research Conference LAWRENCE—Undergraduate student Aaron Cunningham, a staff writer for the New York Times Opinionator blog, will deliver a presentation and serve as keynote speaker for the 24th annual Massachusetts Communication Association Conference on Saturday, Nov. 7, at the University of Massachusetts-Amherst. Cunningham, an ethnic studies and journalism and rhetoric concentrator from Lawrence, Mass., was selected for the nationally recognized presentation because of his expository writing style, including prolific submissions to various newsrooms. “I found him to be very articulate and engaging,” said Kirk Boulais, a professor of mass communication and chair of UMass-Amherst’s Department of Communication. “He’s very ambitious, and he’s going to be one of the best young journalists in the country.” Following his keynote address, Cunningham will moderate a panel on “The Press as an American Institution: A Challenge and Opportunity for Activist Journalism and Communication Students
