Magadheera (Ramcharan,Kajal Agarwal) Khatarnak Khiladi (Mirchi) . 1. Field of the Invention The present invention relates to a wireless communication system, and more particularly, to a method for transmitting a signal in a wireless communication system and an apparatus therefor. 2. Discussion of the Related Art With the recent increase in the demand for wireless communication systems, there is an increasing interest in a multi-antenna system. A multi-antenna system, unlike a single-antenna system, may increase the efficiency of data transmission and reception using multiple transmission signals. This type of multi-antenna system transmits and receives data with multiple transmission antennas and multiple reception antennas. The multi-antenna system increases the efficiency of data transmission and reception in a wireless communication system as compared with a single-antenna system that has the same channel capacity. In a wireless communication system using multiple transmission signals and multiple reception antennas, it is necessary to design the
