Q: HTML 5 video tag does not plays anything at all So I was trying to play a video in HTML 5 by using tag but for some reason it does not works. I took exactly the same code from a tutorial to use it (minus a few minor parts and the js variables) and as you can see it does not work. Example I have tried with.mp4,.3gp,.ogg, and.avi files and it does not work even with a simple.
