1. A New Fantasy Action RPG: The RPG's design philosophy is that of advancing the action RPG genre while focusing on "richness" that a fantasy-style RPG must have, including animated menu and optional UI elements, a high degree of freedom, rich PvP elements, a unique script engine and balanced difficulty. It supports a multitude of menus, such as HUD, status menu, inventory, customizing options, and three playable races. 2. An Epic Epic Experience: As you adventure across the Lands Between, you'll get the feeling of a modern fantasy RPG and experience a world reminiscent of the past. 3. From the start, you'll be a hero: Create your own character, strengthen the power of your weapons, armor, and magic, and develop your skills based on your play style. The game will evolve and increase in difficulty as you progress through the story. 4. The World of Fantasy: From a mythical dragon race to the multifaceted races of the world, Tarnished will give you a fantasy RPG experience that will make you feel like you're in the world of myth and legend. 5. Original Voices of Fantasy with the Atelier Series: The voice actors in the Atelier series have lent their skills to the Tarnished game, including Yoko Hikasa and Kazuki Nakajima as the Japanese voices and Nolan North and Laura Bailey as the English voice actors. 6. Link to the classic Atelier series: After you've finished the main story, you'll be able to experience the Atelier series action RPG with the same story, characters, and music! 7. Unique Online Play for "More than Just a Game": Beyond multiplayer, Tarnished also has an asynchronous online element. Depending on your connected status, you can experience a Tarnished online game with the same rules as the main scenario. With this, players will get to enjoy a brand new play experience of the main scenario and feel the spirit of being in the Lands Between.
