Multiplayer Online Battle Arena (MOBA) is the genre of video games commonly described as fighting games. They involve large quantities of combatants of various types on a 3D battlefield. Each participant has his or her own character, and can be configured to represent a variety of classes and archetypes. Classic genres such as action, RPG, shooter, and fighting are all included within this category. Although several subcategories have been defined, these are generalizations at best. The term "MOBAS" was coined by Alex (Mushroom) in 2004 and was popularized by compLexity and Recca eSports. Examples of MOBAs include League of Legends and Dota 2, and newer titles such as Smite and Paragon.
