This study was conducted to determine the current state of oral health for children and youth in the United States. A stratified sample of 382 clinicians and staff from 14 specialties completed a standardized questionnaire regarding children's oral health care. The results are used to develop hypotheses

regarding the current state of oral health for children and youth in the United States. There are still a number of critical unmet needs for children and youth in the United States. Few children are seen in specialty settings for preventive services. The majority of children and youth in need of a dental checkup are provided with basic dental services. A small number of children are referred for more complex treatment. Most clinicians

report that the public schools, public health departments, and insurance companies pay a large share of the cost of children's oral health care. There is an urgent need to reform current practices to ensure that all children and youth in need receive needed care and to better meet the needs of the many children and youth who are not benefiting from current public oral health programs. Oklahoma! is "The Most Performed Opera in

America" (1946), and Northwestern State University will receive an \$80,000.00 Music Department Bursary Fund to support music education and music performance activities during the school year 2013-2014.

Symphonic Oklahoma!
Oklahoma! Written by Rodgers and Hammerstein and composed by Richard Rodgers (1896-1979), with lyrics by Oscar Hammerstein II (1895-1960), is one of the

most recognized works of American musical theater. It is the story of Curly, the folkish farmer's son, who leaves the small town for vaudeville and ends up falling in love with the self-assured, sophisticated and intriguing Laurey. "Oklahoma!" was first performed on Broadway for a limited run at the Majestic Theatre on December 9

Also coming in as the season is about to begin and everyone is in an uproar. I'd love to keep the reputation system but make it more

fair for everybody but I'm not going to turn the first season in at least 2 years into a beta now. That's just not fair. The reason I'm not changing anything to make this season more fair is because players are going to exploit the reputation system anyways. I'll give legendary players 5 star stat boosts, 10 star stat boosts, and 15 star stat boosts. This would make the game fair for legendary players. What is the reason people would be exploiting the reputation system anyways you may ask? Well you can see how this is a potential exploit if you're a superstar, everyone knows you will be getting pretty much everything no matter what you're doing in a season so why would you try to get anything different? Everyone else will just start complaining that they're getting nothing for their work and whatever they do get will be a percentage of the superstar's overall stats. Either way that's a pretty big loophole and I think it needs to be addressed. Maybe make legendary players overall stats in the season gain 1 star per game instead of the superstar's stats gaining 1 star per game. Or maybe have this ability to be removed when the season ends? I don't want to go into what I'm going to do next, so I'll let it sit there for a little bit. I'll post this just so people can go into the forums and comment on the exploit.
