
Coco (English) Torrent Download [EXCLUSIVE]

Next in the Disney Plus films section was this filmed version of a concert from the Hollywood Bowl celebrating the music from, and that which inspired, Pixar's Coco. Introduced by Benjamin Bratt and Eva Longoria, various singers, dancers and puppeteers bring to life a celebration concert combining the songs from Coco with various Spanish language standards. I don't feel I can really write my customary 400 words on this one, it's essentially the concert, intercut with the film's stars, directors, the concert's director and other talking heads discussing what the film, concert or culture mean to them. For all that, it's only 47 minutes long. The actual song and dance routines were excellent, as was the surrounding Disney magic. As this was (presumably) a one off gig, I think I'd have preferred a straight filming of the show from start to finish, and losing all the interview sections - as the performances are the bits that you want to see and those felt like dvd extras. Love to see more concerts in a similar vein.
