For those whose phones are damaged, you can visit Tools.Spreadtrum page to download tools and Flash file for your phone. But there is a limitation. If you do not have the PIN lock for your phone, it will lose all settings like contacts, call logs, games information, etc. If you want to use the tools of the Spreadtrum firmware, you must ensure a PIN lock for your phone. If you do not know your PIN, you can follow these instructions to recover the phone.

Please be noted that if your smartphone has a PIN lock for your phone, the Samsung Kies of Hotwav will erase the phone data and take the phone to factory reset before flashing the firmware, you can remove the PIN lock by signing in your phone with access to your Google account. Close the Kies and then open it again. For security reason, Samsung Kies can only be opened

at login screen and users must have a Google account or if you did not create Google account at first time, you need to register your account.
