Computer-aided electrical design software for easy creation of electrical circuit diagrams. All functions and commands in SEE Electrical are designed specifically for electrical engineering. Different methods and functions can be used when creating a circuit. The program consists of two main components - the SEE Electrical user interface and the SEE Electrical tool features. The functionality of SEE Electrical is mainly concentrated in a window named SEE Electrical Viewer. Here the user can create new projects, import or export schematics, assign colors and fonts, and enter labels.
