OPPO is always improving the camera experience of its consumers. The Dual 12MP OIS + 5MP camera module includes a robust f/1.9 lens and PDAF technology. The f/1.9 aperture ensures bright and more detailed photos for clearer and better pictures when taking shots indoors or in low-light environments, while the PDAF technology supports real-time AF to ensure fast and accurate shooting.A large 73.9MP f/2.0 aperture sensor and 4-in-1 pixel binning technology are used to take better quality, higher resolution photos and videos. The 4-in-1 pixel binning technology has been applied to the OPPO K3, and the 4K photo mode captures the sensor Light sensor record signal to the memory card. Users can capture even more vivid shots with Photobead, NightVision, and Bokeh effect. The 5.0 inch display screen supports FHD+ resolution with a 75% screen-to-body ratio. After being tested for more than a year and 3 million hours, OPPO K3 has passed the Environmental MIL-STD 810G test. We always see OPPO users taking care of their phones and as a result we want to provide them with the best working environment. Mould can attract moisture and dirt, and bad air can easily enter in the gaps, causing the display and touch panel to be short-lived, or even yellow and blacken. To avoid moisture from affecting your device, we use a unique glass to protect the display screen and an anti-moisture plastic film to protect the touch panel.
